Gaurav Panchal

To leverage expertise in Full Stack Development, Backend Engineering, Cloud Technologies and Generative AI to deliver scalable, innovative software solutions while contributing to product growth and business success.

+918286112257 | gauravhpanchal2@gmail.com | LinkedIn | Portfolio | Pune, Maharashtra

PROFILE SUMMARY

- Results-driven Full Stack Engineer with nearly 3 years of experience, recognized through GitHub Pro Badge (1,261 contributions) bringing strong problem-solving, ownership, collaboration and communication skills with a proven proficiency to deliver end-to-end software solutions.
- Expertise in designing and developing scalable full-stack applications using React.js, Node.js, Next.js, Express.js, TypeScript and Python, ensuring seamless user experiences and robust back-end functionality.
- Hands-on experience building cloud-native and event-driven architectures leveraging AWS services, distributed workflow, serverless computing, and modern database technologies to support high-performance applications.
- Specialized in developing RESTful APIs, microservices, distributed systems and Generative AI-powered solutions, including RAG pipelines, real-time data processing and intelligent search capabilities.
- Proficient at managing the complete software development lifecycle, translating business requirements into scalable technical solutions while driving product innovation, performance optimization, and continuous improvement.

CORE COMPETENCIES

- Full Stack Development
- Frontend Development
- Backend Development & APIs
- Cloud-Native Development
- AWS Serverless Architecture
- Distributed & Event-Driven Systems
- Generative AI & RAG Solutions
- Database Design & Optimization
- Agile SDLC Management

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, Redux, TypeScript, Tailwind CSS, React Native
- **Backend:** Node.js, Express.js, Python, Flask
- **Cloud & Serverless:** AWS, AWS Lambda, Amazon S3, Amazon SQS, Amazon EventBridge, Temporal.io
- **Databases:** DynamoDB, MySQL, MongoDB, Milvus Vector DB
- **AI & Vector Technologies:** Generative AI, Retrieval-Augmented Generation (RAG), LangChain, Milvus Vector DB
- **Messaging & Streaming:** RabbitMQ, Server-Sent Events (SSE)
- **Web Services & APIs:** RESTful APIs

EDUCATION

- **Full Stack Web Development |** Masai School | Bangalore | 2023
- **Bachelor of Engineering (Production Engineering) |** Mumbai University | Mumbai | 2019 | CGPI: 6.33

WORK EXPERIENCE

Resident Interface India Pvt. Ltd. | Full Stack Engineer | Aug 2025 – Oct 2026 | Pune

- Developed end-to-end product features across React.js and Node.js environments, managed the complete development lifecycle from design through deployment.
- Designed fault-tolerant workflow using Temporal.io for reliable process execution.
- Architected scalable data solutions using DynamoDB and MySQL to support high-performance transactional & operational workloads.
- Built serverless applications and event-driven services leveraging AWS Lambda, SQS, EventBridge and S3 to enhance scalability, reliability and system performance.

DataNnovite Solutions | Associate Full Stack Developer | Jan 2025 – May 2025 | Pune, India

- Developed scalable full-stack web applications using React.js, Node.js, Express.js, and Flask for business-critical use cases.
- Built Generative AI-powered RAG pipelines utilizing LangChain and Milvus Vector DB to enable intelligent extraction and retrieval of financial and KYC document data.
- Integrated Server-Sent Events (SSE) and RabbitMQ to support real-time data streaming and asynchronous messaging capabilities.
- Managed end-to-end SDLC activities, including low-level design, testing, debugging, and API performance optimization.

CityCabz | Web Developer | Nov 2022 – Jan 2024 | Mumbai, India

- Designed and developed mobile-first websites for the travel and tourism industry, enhancing usability and customer engagement.
- Optimized website architecture and content for search engines, achieving first-page Google rankings for targeted keywords.
- Deployed and maintained website hosting environments on custom domains while ensuring security, stability and high availability.

FREELANCE EXPERIENCE

Freelance Full Stack Developer | Jan 2024 – Dec 2024 | Remote

- Developed responsive user interfaces from Figma designs using React.js and integrated back-end services to deliver seamless application functionality.
- Integrated and consumed RESTful APIs to enable efficient client-server communication and data exchange.
- Optimized front-end performance and streamlined API payloads to improve application responsiveness and user experience.
- Designed and implemented a robust backend architecture using Node.js and Express.js, seamlessly integrating RESTful APIs and database services for enhanced performance.

CERTIFICATIONS

- **Masai Assessment Assistantship Program** | Masai School | 2024
- **Namaste React** | 2023

ACHIEVEMENTS

- GitHub Pro Badge | Achieved 1,261+ contributions through active participation in software development and open-source projects.
- Data Structures & Algorithms Excellence | Solved 601+ coding challenges across online programming platforms, exhibiting strong analytical and problem-solving capabilities.
- Masai Assessment Assistantship Program Recognition | Selected for successfully completing the assessment and assistantship program at Masai School.

PERSONAL DETAILS

Date of Birth: 4 April 1997

Languages Known: English, Hindi, Marathi , Gujarati
